SERBIA OCCUPIES DURAZZO, QUIET TO ADRIATIC SEA

Wide Breach With Austria, Whose Prime Minister Has Been Given Authority to Move Army for War

LONDON, Nov. 28.—The Serbians, ignoring the proclamation of Albanian independence, have occupied the port of Durazzo without resistance. This information comes in a direct spate from that town tonight.

Thus the conflict is now raised in acute form between Austria and Serbia, and it remains to be seen whether the Austrian government will take any direct action or will be content to leave the question for the after-the-war settlement.

The Serbian action, coupled with the recently warlike feeling prevailing in Albania, is likely to keep Europe in a strained state of anxiety. On the other hand, the fact that the negotiations on the Teutonic line, the great powers are exchanging proposals for the assembling of a peace conference, all make for a peaceful settlement.

Should the proposed conference materialize for any purpose, it would be considered as preparatory to full conference, which would include the Balkan states and Turkey. A final settlement of all questions, things have been decided as to where the project appears to have arisen of a general sense of irritation at the inevitable delays necessitated by "constant telegraphic interchanges."

Great secrecy is observed regarding the conference, and it is known that the plenipotentiaries for discussing the terms of an armistice or basis for the conclusion of peace.

It is reported from Rome that a proposal Albanian government has been constituted at Valona (Avlona) 80 Albanian delegates.

Austria to Be Prepared.
VIENNA, Nov. 28.—Much excitement has been occasioned by the news of the government in arranging the mobilization of the Austrian army which prevents the minister's destination to be prepared for any demand in the Balkan crisis.

The parliamentarians have tonight decided to allow the premier's three dealing with the mobilization to committee without the customary reading.

Another incident commented on in a visit of Field Marshal Baron Czernow, inspector general of the army, to Bucharest, where he heard yesterday as the guest of King Carol. He bears an autograph letter from the Austrian emperor and confers with the Roumanian chief of staff.

A extraordinary meeting of the cabinet council tonight adopted a decision declaring that "the mobilization of peace is worth great sacrifice, but the economic prosperity of the state and the full blessings of the only are only vouchsafed to states which maintain peace not by dishonorable weakness but by forceful support by the consciousness of a just cause."

Powers Are Active.
LONDON, Nov. 28.—Sir Edward Grey's proposal that the ambassadors of six great powers, Great Britain, France, Germany, Russia, Austria and Italy assemble in one of the capitals with the view of emphasizing the points arising out of the war on which the nations are agreed, is understood to be the support of Germany, Russia and France.

It is expected that without attempt to reach a definite settlement of the problems that will come up for settlement at the end of the war, the

THIRTY-THREE MEN AT THE Y.M.C.A. BANQUET

by one States and Eight Foreign Countries Are Represented by Participants

Thirty-three young men, representing states and eight foreign countries, attended the Thanksgiving turkey dinner given by the Y.M.C.A. at the Hotel Hamilton. The dinner was given by the Y.M.C.A. at the Hotel Hamilton. The dinner was given by the Y.M.C.A. at the Hotel Hamilton. The dinner was given by the Y.M.C.A. at the Hotel Hamilton.

Rev. Samuel Garvin was toastmaster for the banquet and talks were given by Mark J. Sweeney, Judge Robert and the Rev. Adna W. Moore. Thanksgiving prayer was led by the Rev. L. Thompson. The guests were asked to toast as they arrived and whether their parents are living. It developed that the parents of 25 of the young men present are still alive.

The feast was furnished throughout the evening by the Y. M. C. A. orchestra. W. Davis sang. The dinner was given by the Y. M. C. A. at the Hotel Hamilton. The dinner was given by the Y. M. C. A. at the Hotel Hamilton.

REBEL BAND OF MARAUDERS IN U. S.

Threaten Raids on New Mexico Towns 100 Miles From Border

CITIZENS ARM THEMSELVES
May Cause International Complications With Republic of Mexico

ALBUQUERQUE, N. M., Nov. 28.—A large band of Mexican well-armed and heavily armed, headed by a Mexican, have been reported threatening raids on the towns of Montefiore, Fairview and Cuervo, in Sierra county 100 miles from the border.

The news of the invasion was received at Hillsboro, today, in a message from Sheriff W. C. Kendall of the county, who wired as follows:

"Robert Martin, a ranchman, reports a band of 200 Mexicans, armed with rifles, shotguns and pistols, are threatening to raid the towns of Montefiore, Fairview and Cuervo, in Sierra county, 100 miles from the border. The band is headed by a Mexican, who is a well-known leader of the band. The band is threatening to raid the towns of Montefiore, Fairview and Cuervo, in Sierra county, 100 miles from the border.

Citizens Pursue Marauders.

Immediately on receipt of the message at Hillsboro, a posse of men were formed. They have left for the scene of trouble with a view of engaging the marauders in battle or driving them from the state.

Great excitement tonight prevails in the towns named, and with the citizens prepared to resist the invaders a clash is not unlikely. United States Marshal Secundino Romero of this city was tonight advised of the invasion, and he in turn communicated with United States Attorney S. B. Davis at Las Vegas. Mr. Davis wired Attorney General Wickersham for instructions. In the meantime, Marshal Romero has gathered his deputies and is ready to go to the scene.

TYPHOON DOES GREAT DAMAGE IN ORIENT

MANILA, Nov. 28.—Many lives were lost during a severe typhoon which occurred today, causing damage to property estimated at millions of pesos.

The storm, which was very violent, crossed the island of Samar, Leyte and North Panay, leaving ruin in its path. The town of Tacloban, the capital of Leyte, was practically destroyed. Two steamers were wrecked in Tacloban harbor.

How many persons were killed by falling houses, flying debris and by drowning is not known, but the loss of life is reported to have been great. Another typhoon of unusual severity is predicted by the weather bureau along the west coast of Mindanao.

RUSSIA TO OPPOSE AMERICAN PRODUCTS

Fourth Duma Assembles and Announces Progressive Policy

ST. PETERSBURG, Nov. 28.—The fourth Russian duma assembled today for the first time since the election in September.

M. Rodzianko, the Octoberist deputy of Kerkaterinastav, who was president of the third duma, was re-elected president by a vote of 181 to 150. In his address he spoke of the public interest in the Balkans and the necessity for sacrifices in money, and if necessary, men on the part of Russia. The whole house cheered.

The new duma disappointed the gloomy critics who predicted the triumph of reaction.

The fourth duma declared itself a progressive body, but it cannot be inferred that a majority will be found to favor the American contention in the passport controversy. The policy of the government will be to render the Russian market independent of American cotton and American agricultural machinery and in it is fairly certain to be supported by the duma.

BUBONIC PLAGUE BREAKS OUT IN NEW SOUTH WALES

SYDNEY, N. S. W., Nov. 28.—Details of a serious outbreak of bubonic plague at Numea, New Caledonia, have reached here on a ship from the French island, which has been placed in quarantine by the health department. Twenty natives and two Europeans have already succumbed to ravages of the plague. It is reported.

LARGE BUSINESS BLOCK PLANNED TO DEMAND

OPTION GIVEN ON LEASE ROBINSON CORNER \$200,000 Structure

A shoddy option for a \$200,000 lease on the property on the corner of Pike Peak avenue and Teutonic street, known as the Busby Corner, and occupied by the Robinson drug store, has been secured by O. H. Shoup, B. H. Hopkins and D. J. Finkelstein, prominent business men of Colorado Springs, and the erection of an eight-story building work upon which it is said to have been started.

The lease on the site was secured from Mrs. C. S. Campbell, and \$1000 has been deposited by Messrs. Shoup, Hopkins and Finkelstein as evidence of their good faith in the project. Preliminary plans have been drawn for the building, which will be the largest in the city. By Michaelson & Thomas, the structure to be erected on one of the corners of the block, and it will cost about \$200,000 to erect the proposed building.

Negotiations for the lease have been in progress for several months, and several of the business men who are interested in the site, which is situated in the best business location in the city, are offering \$150,000 cash has been offered to Mrs. Campbell, who desired an income from the property in the form of a lease. The rent for the property will be \$1,000 a month.

No Mercantile Establishment.

The first floor of the building is to be occupied, entirely by a banking house, although it has not been announced which bank will make the change, or whether one of the local banks will be placed there. There will be no mercantile establishments in the structure, the remaining floors to be occupied by offices. The building will contain the most modern ideas in respect to construction. Stone will be used for the first story and vitrified brick for the upper stories.

Definite plans as to building will not be complete for several days. The lease held by all the owners of the block expires January 1, with the exception of the Robinson drug store, which holds a lease until May 1. The drug company has identified its intention of moving before the tourist rush, and may close shortly after the first of the year. It has not yet announced its plans for a new location.

The deal is one of the largest in Colorado Springs. For several years, O. H. Shoup and B. H. Hopkins, president and second vice president, respectively, of the Midwest Oil Co., and who are interested with W. Z. Reed of this city in various ventures, have taken a prominent part in business in Colorado Springs. D. J. Finkelstein, proprietor of the Hub clothing store, who will have a third interest in the building, is well known here. Contrary to a published report, the Hub store will not move from its present quarters, which were modeled especially for the store.

The lease was negotiated through T. J. Downer.

RAY LEWIS CAPTAIN 1913 COLLEGE FOOTBALL TEAM EVERYBODY HAPPY ON THANKSGIVING

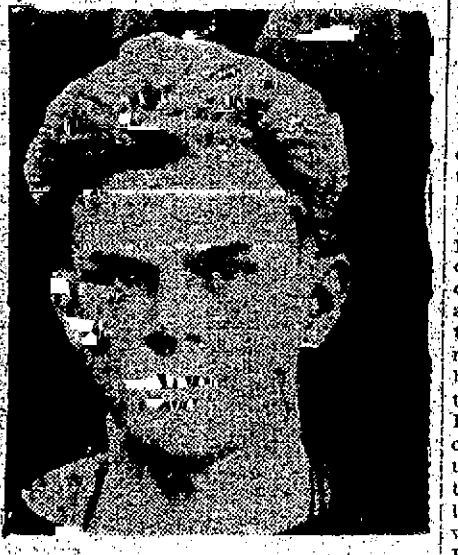

Day Spent in Prayer, Feasting and Entertainment. Poor Are Remembered

Right royally was Thanksgiving day observed in Colorado Springs, and the Pike Peak region yesterday. Business was at a standstill, and prayers of thankfulness, feasting and entertainment occupied the day from morning till late at night.

Union services and excellent musical programs were given in four of the churches in the morning, and large crowds attended. The day was bright and warm, and many were attracted to outdoor sports in the afternoon, notably the football game at Washburn field and the golf tournament at the Colorado Springs Golf club. "The Isle of Dreams," a pretty Japanese operetta, given under the auspices of the Federation of Women's Clubs, at the Grand opera house, also drew a large audience, and Temple theater was crowded in honor of the annual Policemen's ball.

Special menus in clubs, hotels and restaurants, and typical Thanksgiving dinners in thousands of homes helped to celebrate the day in proper fashion, and 35-men away from home enjoyed an elaborate dinner at the Y. M. C. A. last evening, beginning at 6:30 o'clock.

At the various hospitals and sanatoriums and about the city, special dinners were given at also were the case at the Union Printers home and the Deaf and Blind school. Even the city and county prisoners were not forgotten, and turkey dinners were served at both jails. The county commission also provided a good dinner for the inmates of the poor farm. The Associated Charities, Peoples Mission, Salvation Army and a school children raised out of the spirit of Thanksgiving in a most practical way, and every worthy poor family so far as known was supplied with a turkey or chicken and the trimmings.

RAY LEWIS, TIGER CAPTAIN 1913

NEW SENATORS GOV'T. FINISHES DYNAMITE CASE

WILL ASK ENFORCEMENT BOND RULING

INDIANAPOLIS, Ind., Nov. 28.—Two government attorneys today filed a motion in the federal court here for an enforcement of the dynamite conviction of H. H. Russell.

The government attorneys today filed the motion, and the court will hear the case tomorrow. The government attorneys today filed the motion, and the court will hear the case tomorrow. The government attorneys today filed the motion, and the court will hear the case tomorrow.

Seven Knew of Plot.
Seven persons were named by Russell as having known of the plot to blow up the dynamite conviction of H. H. Russell.

Russell, who was convicted of the crime of blowing up the dynamite conviction of H. H. Russell, today filed a motion in the federal court here for an enforcement of the dynamite conviction of H. H. Russell.

The government attorneys today filed the motion, and the court will hear the case tomorrow. The government attorneys today filed the motion, and the court will hear the case tomorrow. The government attorneys today filed the motion, and the court will hear the case tomorrow.

Many Favor Change.
Several propositions for a change have been advanced. The most generally accepted of them would give each of the old senators his choice of one important committee, the other commanding places on the committees to be yielded then to the newer members.

Senators Bacon, Tillman and Martin, who entered the senate in 1895, head the Democratic membership of many committees.

Senator Tillman is the ranking Democratic member of eight committees and under the seniority system would be entitled to take the chairmanship of one and hold second position on all the others. Under the proposed plan he would be entitled to select a chairmanship, but would then have to give second place on the other committees to members not now holding the important positions.

Bacon Has Five Places.

Among the committees over which Senator Tillman would exercise control are appropriations, interstate commerce and naval affairs. Senator Bacon commands first place on five committees, among them foreign relations, judiciary and rules, three of the best committees of the list. In addition to being chairman of the Democratic caucus, Senator Martin

Older Boys of City Are Active in Y.M.C.A. and Other Uplifting Work

A delegation of 15 boys from the Pike Peak region left yesterday to attend the first annual conference of the Y.M.C.A. of Colorado.

The boys, who are members of the Y.M.C.A. of Colorado, are expected to return to their homes in the Pike Peak region today. The boys, who are members of the Y.M.C.A. of Colorado, are expected to return to their homes in the Pike Peak region today.

Prisoners Congratulate Him.
Through the "underground" network of the prison, word quickly reached the prisoners that he was to be released. The prisoners, who were in the prison when Patrick was released, congratulated him.

Patrick's wife, who was in New York when he was released, was overjoyed to hear of his release. She had been waiting for him for a long time, and she was very happy to hear that he was coming home.

Was Married in Prison.
Reports from a crowd of several hundred persons, who were gathered in front of his home in New York, that Patrick had been married in prison.

Former Senator Gordon of Michigan Is Dead

OKLAHOMA, Mich., Nov. 28.—After an illness extending over several weeks, former United States Senator James S. Gordon, aged 79, died here today. The funeral will take place Friday morning.

RIVER AND HARBORS APPROPRIATION MAY BE OVER \$32,000,000

WASHINGTON, Nov. 28.—We hope congress will make the most liberal annual appropriation for rivers and harbors this year that has ever been made," said Representative Russell, senator-elect from Louisiana and president of the national rivers and harbors congress, today.

The rivers and harbors congress meets here next week and backed by favorite planks in the Democratic and Republican platforms, an effort will be made to induce the Democratic house to be unusually liberal with its appropriations for public works.

Representative Sheppard of Texas, chairman of the house committee on public buildings, said his committee has been working on the bill for some time, and he expects to report it soon.

The house committee on rivers and harbors will meet probably Friday to begin its work. It is suggested by several members of the committee that the appropriation should stand an average of \$32,000,000 for this year.

PROTEST CHARGES WESTERN SAMPLERS

Take Steps to Place Mining
Congress on Sound Basis
Financially

SPOKANE, Wash., Nov. 28.—Plans
for the permanent financing of the
American Mining congress occupied the
attention of delegations at the brief
session today.

A message was read from F. Wallace
White of St. Louis offering to be one
of 100 men to subscribe \$1,000 each. As
an alternative, he proposed that the
initial fee for life members be raised
from \$100 to \$1,000 and a membership
campaign be started to raise \$100,000
to be invested for the benefit of the
congress. No definite action was taken.

A resolution was adopted providing
for the appointment of a committee to
frame a law protecting mining in-
vestments. This committee will report
next year.

A resolution recommending that the
charges for sampling gold at govern-
ment assay offices in the west be not
allowed to exceed the charges in force
at the office in New York, was adopted.
It was a resolution favoring the abo-
lition of the Mount Olympus mine, a
500-foot-deep mine, preserve in the
 Olympic national forest of Washington.

Representatives from Missouri, Okla-
homa, Kansas and Idaho organized to-
day the lead and zinc chapter of the
congress with the object of urging the
rejection of the duty on lead and zinc.
The congress held aside its delibera-
tions tonight for a frolic at the "Spo-
kane diggins," a mimic mining camp of
the wild old days.

MILITIA OFFICERS GOOD ON THEORY, BUT POOR ON PRACTICE, SAYS INSPECTOR

WASHINGTON, Nov. 28.—Based
upon experience acquired at the
militia officers' camps of instruction
held in a number of states last sum-
mer, Brig. Gen. Ramsey B. Potts, with
headquarters at Chicago, found much
to criticize in the training of the
militia officers of the middle west. In
his report to the secretary of war,
General Potts says these officers dis-
closed weakness in handling their or-
ganization; in knowing how to sub-
sist and care for their men in camp and
on the general duties of command and
of organization. Many officers, he
charged, had progressed along theo-
retical lines at the expense of practical
work and while they could discuss
intelligently advanced military topics,
they were hopelessly lost when in com-
mand of seven companies in the field.
As a partial cure for this condition
General Potts now is trying out a plan
of allowing these militia officers to go
to regular army posts in the hope that
they may gain much practical and val-
uable instruction.

The efforts of the war department to
secure the designation of suitable sites
in each state as a place for mobiliza-
tion of the militia in time of war, the
report declared, were not generally
successful.

BLANCHE BATES AND GEORGE CREEL WED

Husband Says He Is Not
Marrying Housekeeper
or Cook

NEW-YORK, Nov. 28.—Miss Blanche
Lyon Bates, and George Creel, police
commissioner of Denver, were married
today at Miss Bates' country home in
Newcastle, a suburb.

Judge Ben B. Lindsey of Denver
was an usher. This evening there was
a reception and banquet in Manhat-
tan.

"I am not marrying a housekeeper
or a cook," George Creel said emphat-
ically, discussing his wedding. "I am
marrying Miss Bates knowing that she
has a mind of her own, as every wo-
man should have. I would no more
think of asking her to retire from the
stage, merely because she was my
wife, than I would expect her to ask
me to give up my writing and other
work."

"She has just as much of a right to
do as she wants to as I have to do as
I please, so far as our careers are con-
cerned."

"The first really successful engage-
ment Miss Bates ever had as an ac-
tress took her to Denver, which she is
to call home. She came to New York
in 1911 to get a chance on the stage,
coming through Denver on her way
east from California."

"The offers she received in New York
did not suit her and she began to look
elsewhere."

"About that time James Neill, who,
with Larry Giffen, now connected with
the management of Mrs. Flisk and com-
pany, had a stock company in Denver,
offered her a place in that organiza-
tion and she accepted."

"She played for some time at the old
Lyceum theater, later known as the
Curtis and now picture house. After
that engagement Miss Bates' rise was
rapid."

Fight Each Other in Darkness While the Enemy Escapes

MEXICO CITY, Nov. 28.—Credit for
dislodging the rebels from Chalco,
about 80 miles from the capital, was
somewhat lessened by the fact that two
federal detachments, the Twenty-ninth
and Sixteenth Infantry, fought each
other during the latter part of the en-
gagement.

The sorties against the insurgents
was a straight attack, the federal com-
mander dividing his force and march-
ing against the rebels from two sides.
The fighting was spirited, regardless
of the federal's inability to see the
enemy in the darkness.

An officer of one detachment recog-
nized the bugle calls of the other, and
investigation disclosed that the rebels
had disappeared and that bullets were
exchanged between the sections of the
government forces. At least some fed-
erals were killed in that part of the
encounter.

Reports of travelers and mail advices
indicate that conditions in various
parts of the republic are worse than
is generally known in the capital and
that these conditions are more wide-
spread. At least 10 encounters have
taken place in the last three days, the
federalists claiming victory.

The rural districts in the southern
part of the state of Mexico are prac-
tically controlled by the rebels. Gen-
eral Blanquet will be sent to the state
of Mexico to lead the campaign.
Porfirio Delahave, son of Guadalupe
Delahave, a regular army colonel, who
was leading the rebellion in Puebla,
has been killed in an encounter near
Chimalhuacan in that state, according
to a government report. Guadalupe
Delahave was in command of a force
estimated at 200, and it is reported
was defeated by the federalists.

LYNCH 3 NEGROES AT SHREVEPORT, LA.

SHREVEPORT, La., Nov. 28.—Wood
Burke, Jim Heard and Silas Jimmer-
son, three negroes who attacked and
seriously wounded Deputy Sheriff Ed-
wards, of Rossier parish several weeks
ago, were taken from three deputies
tonight and lynched.

The deputies and their charges, trav-
eling in buggies, were met at the edge
of a swamp by a mob, the deputies
overpowered and the negroes taken
into the swamp and hanged.

Burke, Heard and Jimmerison, pris-
oners in the Rossier parish jail, at-
tacked Edwards on the evening of Sep-
tember 10, while the prisoners were be-
ing served supper.

The negroes beat him into uncon-
sciousness with a piece of pipe and es-
caped. His condition is still serious.

PUBLICITY LAW IS TO BE TESTED SOON

WASHINGTON, Nov. 28.—On the
theory that congress intended to pass
a constitutional law when it enacted
the newspaper "publicity" law last
summer as a part of the postal ap-
propriation act, Solicitor General Bullitt
in a brief made public today, asked
the supreme court of the United States
to construe the measure to be a con-
stitutional enactment. The law will
come before the court for considera-
tion Monday.

"So long as the laws are passed in
the hasty and unconsidered way that
they are," the solicitor general argued
in the brief, "it is the duty of the
court not to adhere to the letter of the
enactment and destroy the spirit but
to strive as best it may to give mea-
sures a reasonable and effective mean-
ing."

"Very probably congress has no

CITIZENS OF LAWRENCE RENEW PATRIOTIC VOWS

LAWRENCE, Mass., Nov. 28.—At a
series of mass meetings, thousands of
citizens of Lawrence tonight renewed
their vows of patriotism and loyalty
to the nation's flag, to support the city
government, to defend the "honor of
the city" against the "slander of her
enemies" and to promote the general
interest of the whole city.

Earlier in the day a crowd of 1,500

textile operatives in a vacant field
listened to Joseph J. Ettor, the Law-
rence strike leader, expound the doc-
trines of the Industrial Workers of the
World.

The meetings tonight were marked
the end of a period of protest on the
part of a large proportion of Lawrence
citizens against the parade of the In-
dustrial Workers of the World on Sep-
tember 29, when hundreds of persons
marched through the streets waving
red flags and displaying the motto, "No
God, no master."

Earlier in the day Ettor spoke from
a truck in a vacant lot, the authorities
having refused to permit the Industrial

Worker to parade or to hold a
meeting on Lawrence commons.
He held his crowd for an hour
half and frequently was cheered.
Ettor said today had been set
as a day of giving thanks. The
Italist class, he said, had repa-
be thankful for, but the working-
had nothing for which they could
thanks.

For foreigners who wish to live
comfortably in the way they would
home, Jerusalem—where prices
gone up 50 per cent in 10 years—
said to be not much cheaper than
average city of the same size in
United States.

Wake Up! You Lazy Stomach!

Make Your Stomach Cheerfully Do
Its Work Stuart's Dyspepsia
Tablets Digest Your Food and
Assist Your Stomach

People who complain they are worn out, are nearly all dyspeptic and are recommended to use Stuart's Dyspepsia Tablets. The stomach gets heavy, food ferments and sour gas belches up, there are symptoms of bloating, the blood becomes thick and sluggish, the liver is blamed, the head is heavy, the mind a blank and the dining room a chamber of horrors.

One of the greatest evils of our modern life is the quick lunch. To this evil as much or more, than any other, may be traced the preponderance of the stomach troubles of our times. Instead of taking time to thoroughly masticate the food before swallowing it, the average person rushes through the meal, bolting the food, deglutition taking place while it is only partially mixed with saliva, and only half masticated, thus leaving the stomach to do the work the teeth should have done.

Stuart's Dyspepsia Tablets contain digestive elements a single grain being capable of digesting 3,000 grains of food, including meats, eggs, grain, vegetables, starches and mineral matters. They prepare every particle of food by thorough digestion for ready absorption and assimilation by the lactical glands which pass it into the blood, whence it is conducted to all parts of the system rebuilding and revitalizing it.

Every druggist has Stuart's Dyspepsia Tablets in stock and sells them at 50 cents a box.

THREE ARE KILLED WHEN TRAIN WRECKS

Four Cars Roll Down Bank
Onto Freight Cars 40
or More Injured

PHILADELPHIA, Nov. 28.—Three persons are known to have been killed and more than two score were injured, some probably fatally, when the Cincinnati express, on the Pennsylvania railroad, was derailed at Glen Loch, about 25 miles west of this city last night. One day coach and three sleeping cars fell 20 feet down an embankment onto a train of coal cars on the freight line which at this point, runs parallel to the passenger track.

The dead

H. L. BALDWIN, New York Pullman conductor

JONES, Pullman conductor

1 unidentified passenger

Among the injured in West Chester hospital are

Miss Jane Kelly, Chicago, suffering from shock

Mrs. Mary Huddnut, New York, two fractured ribs

Stephen Penhance, East Brownsville, Pa., concussion of the brain

Victor Valene, Philadelphia, scalp wound and contusions of hip

Bert Ransburgh, Harrisburg, badly hurt

Rev. H. G. Wilson of Indiana, right arm sprained

Mrs. H. C. Miller, Altoona, Pa., right arm and hip injured

Elizabeth Sarde, Youngstown, O., cuts on face and contusions on hip

Additional names of injured are given out by the railroad authorities in Harrisburg as follows:

J. A. Marquis, Cedar Rapids, Ia., contusion of head not serious

Mrs. Elizabeth Santilly, New York, face cut

Caused by Broken Rail.

The train was composed of two locomotives, a postal car, a combination baggage and smoker, one day coach and nine Pullmans, mostly sleepers.

The railroad officials believe the accident was caused by a broken rail.

Relief trains were rushed to the scene of the wreck from Philadelphia and Lancaster and the injured removed to West Chester and Harrisburg, while some were cared for in neighboring farmhouses.

The majority of the passengers in the day coach were lounging in their seats preparing for the long night ride and those in the sleepers had retired when the accident occurred.

Few of the passengers had any idea what caused the wreck. Some blamed a broken rail and all agreed that but for the steel cars there would have been many more casualties.

A party of railroad officials left Philadelphia early today for the scene of the accident to conduct an official investigation. A special train was made up at Harrisburg to take west all passengers for Pittsburgh and beyond.

Several of the passengers reached Harrisburg without overcoats and weapons in blankets. They were provided with clothing and given places on the special.

Many of the travelers recovered their baggage. After the first shock, when the cars toppled over and they found no fire or serious damage, they were able to grope their way back to their berths and dress by the light of lanterns. Some of the passengers hustled into their clothes while standing in vestibules.

BRIGHTON JAIL BREAKERS ARE STILL AT LARGE

BRIGHTON, Nov. 28.—Frank J. Smith, confessed slayer of Jesse H. Stingley, a railroad detective, and James A. Stanton, alleged horse thief who escaped from the county jail last night, are still at large.

SUBWAY BREAKS RECORD

NEW YORK, Nov. 28.—The records for traffic on the New York subway were broken during the last week, the totals showing a daily average of 1,044,000 passengers. At the time the subway was built it was expected that the maximum daily traffic would not exceed 600,000 persons.

Wireless telegraph apparatus which may be used on an airplane without the necessity of an extended aerial wire, has been perfected in England.

FLAGS MINGLED AT THANKSGIVING MASS

President Taft Attends St
Patrick's Services in
Washington

WASHINGTON, Nov. 28.—Under the flag of the 81 republics of the western hemisphere Thanksgiving Mass was celebrated in St. Patrick's Roman Catholic church here today.

President Taft, cabinet officers, Chief Justice White, of the supreme court and the high officials of the United States, while the American republics were present in a body.

Peace was the central theme of the service. The president was not accompanied, as is usual, by military aide, but was met at the door by a priest to his seat at the front of the church and attended while there by a white-laced messenger of peace, a Smith assistant at St. Patrick's.

Archbishop Keane Preaches.

Archbishop Keane of Dublin, who preached the sermon, paid high praise by implication to the efforts of the Irish people in the cause of international peace. He declared the peace idea was going and added that he said this in spite of the booming cannon along the Bosphorus.

Cardinal Gibbons on the other hand, took the right of the state and the ceremony took on an official and official grandeur the cardinal was accompanied by the Very Rev. James A. Burns and the Rev. John Whelan as chaplains, while his high altar was adorned by pages dressed in rich red velvet.

The sanctuary was lighted by hundreds of candles and the service was of unusual quality a feature being the Pan-American march which was played on a recessional by the organ and orchestra. It included portions of the national airs of the various republics.

Rector Gives Luncheon

The celebrant of the mass was the Rev. John J. Murray. The Rev. Charles W. W. Currier was subdeacon and the Revs. Thomas E. McManis, John M. McManis and William J. McManis were masters of ceremonies.

After the service, Monsignor Russell, rector of St. Patrick's, gave an informal luncheon in the church's dining hall to which were invited several cabinet officers, the Latin American diplomats and a number of prominent government officials and their dignitaries.

The president and Mrs. Taft left the church immediately after the sermon to attend a Thanksgiving service at the president's own church, St. Louis.

NEW SENATORS

(Continued From Page One)

could be chairman of either of four committees including commerce.

Senator Culberson, who came in three years later than either of these three, is the ranking Democrat on four committees, and will hold second place on appropriations and judiciary, giving him his choice for the chairmanship of either of those two if Senator Bacon should take the position on education.

For the chairmanship of foreign relations or if Senator Tillman should forego his opportunity to become chairman of appropriations.

Senator Simmons, who entered the senate as late as 1901, would have his choice of the chairmanships of as many as six committees including finance.

Other members who will have a wide range of choice are Senators Bankhead and Johnston of Alabama, Clarke and Davis of Arkansas, Newlands of Nevada, Overman of North Carolina, Smith of Maryland and Stone of Missouri.

SERVIA OCCUPIES

(Continued From Page One.)

the transport of troops and war materials to Tchetalia.

With the divisions of Generals Theodoroff and Kovtchouff totaling about 50,000 men the recruits of 1912, the reservists and the volunteers from

America, the army before Tchetalia soon will be augmented by 90,000 men.

When these forces are assembled, said the statement, "if our terms are refused we shall march with the allied armies into Constantinople at all costs."

The correspondent adds that if the Bulgarians go into Constantinople the inevitable result will be the occupation of Constantinople and the Dardanelles by Russia.

Austria in No Hurry.

LONDON, Nov. 28.—The Daily Mail Vienna correspondent says Austria will take no steps to drive the Serbians out of Durazzo until the war preparations are completed because such a step would almost certainly bring her into conflict with Russia.

CONSTANTINOPLE, Nov. 28.—It is said in official circles that no result has been reached in the peace negotiations between the Turkish and the Greek delegations.

ASTHMA CATARRH

WHOOPING COUGH BRONCHITIS SPASMODIC CROUP COUGHS COLDS

Vapo-Cresolene

ESTABLISHED 1870

A simple, safe and effective treatment for bronchial troubles, without dosing the stomach with drugs. Used with success for thirty years.

The inhalant vapor, prepared with every breath, makes breathing easy, soothes the sore throat, and stops the cough, assuring restful nights.

Cresolene is invaluable to mothers with young children and a boon to sufferers from Asthma.

Head Covered With White Pimples

Went to Ear, Shoulders and Whole Body. Thick and Sticky on Head. Eruption Covered With Blood. Cuticura Soap and Ointment Cured.

Excuse, Ill.—"The trouble started on my baby when he was only about two years old. Started like little white pimples, looked like an old scab of blood and matter. His whole head was covered for a few months then it went to his ear, shoulders, and his whole body. It seemed to come out thick and sticky on his head, while on the other parts of his body it was more like water coming out of the skin.

He would scratch until the eruption would be all covered with blood and gradually water coming out of the skin.

The least little stir or rub would cause the sores to bleed, spread and itch. Never had a full night's sleep, restless all night.

The sores were horrid to look at. It lasted until he was about two and a half years old. Then we saw an eczema advertisement in the paper to use Cuticura Soap and Ointment. We put the Cuticura Ointment on thick at bed time and put a light hood on so he could not scratch the sores. Then we washed it clean with Cuticura Soap and warm water twice a day, and he was completely cured." (Signed) Mrs. E. F. Sulzberger, Dec. 30, 1911.

Cuticura Soap and Cuticura Ointment are sold throughout the world. Trial sample of each mailed free. Write to: Cuticura, P. O. Box 540, Lowell, Mass., U. S. A.

DISCREDITING THE PROPHETS

OLD-TIME professional politicians shake their heads over the Progressive party. They can't understand it. They asserted, before election, that it was simply a one-man party, which would quickly fall to pieces after the defeat of Theodore Roosevelt for president. They claimed it was but an offshoot of the Republican party, and that after election its membership would again be absorbed by the parent party. They said it stood for no distinctive principles, and therefore could not continue to exist.

The election is over, and Theodore Roosevelt was defeated. Yet, instead of falling to pieces, the party he founded seems only to have been the more firmly cemented together by the contest through which it has passed. Theodore Roosevelt has made no speeches since the election outside of New York, and only one there, and yet in spite of the fact that he is not out stirring up the members, they have, scarcely without suggestion from him, proceeded to strengthen their organization for the next fight.

In Massachusetts, just a few days after election, a meeting was held that overflowed Tremont temple into Faneuil hall. There was no thought of quitting the fight on the part of any of the immense crowd present, and so far from feeling discouraged were the Progressives present that on the spot they collected \$8,600 for continuing their work.

In Colorado there is no thought of quitting, no thought of going back to the old party. Every Progressive is determined to continue the fight, with victory in 1914 as the goal. Nationally the same spirit prevails, and from every state comes word that the attendance at the national committee meeting in Chicago on December 10, will be almost equal to that at a national convention, so universal is the enthusiasm and the determination of the party to go forward.

If the Progressive party is to disintegrate, if it is to be absorbed into the Republican party, it has as yet given no sign of its weakness. Everything indicates, on the contrary, that it has just begun to fight. Nothing so much proves this point as the report just sent out from Washington that Democrats and Republicans will unite in the coming session of congress to eliminate the Progressive party. Politicians don't unite to kill something that is already dying.

The most amusing argument against the Progressive party is that it has no distinctive principles. The very newspapers and politicians that make this assertion are daily shrieking about the menace to the constitution contained in the Progressive party's demand for initiative, referendum and recall, for the amendment of the constitution in order to give the people closer control over courts and government, for the proposal for federal instead of state laws safeguarding labor.

It is because the Progressive party does stand for something vital and necessary in the way of legislation that it will live. That is why the members of the new party, in spite of defeat, enthusiastically begin their plans for the next campaign. The Progressive party stands for an absolutely democratic government, in which courts as well as presidents and governors, congresses and legislatures shall be subject to the will of the people, and in which social and industrial justice shall be done to all men and women.

Because the Progressive party stands for such principles it cannot be defeated; it must in the end prevail. And those who have caught the vision of a nation in which justice shall be done to all, undaunted by the loss of one battle, confident of final victory, still stand at Armageddon, still battle for the Lord.

TO TIE THE HANDS

JUST because of the fear of one man by Wall street and the crooked politicians are we, by constitutional amendment still further to circumscribe the rights of the people of the United States to govern themselves? Such is the plan of Democrats and

Republicans, in order to prevent the possibility of Theodore Roosevelt ever again being elected president. They hope to secure a constitutional amendment limiting the president to one term of six years.

Such an amendment would be distinctly reactionary. This nation needs less constitutional limitations, not more. There is no people today whose hands are so bound by constitutional fetters as ours.

There is no danger in a third term. Only children, who have been terrified by ghost stories fear the dark. Only men who have no faith in the ability of the people to govern themselves fear the third term.

Almost invariably the papers that fear the third term are the papers that fight against the initiative and referendum, the recall, commission government, and every other reform intended to give the people more direct government. And they are against all these reforms because they are the servants, not of all the people, but of Special Privilege. They know that the people, once they get direct control over their government, and learn how to use the new tools, will root out all special privilege. Hence their frantic fear of direct legislation; hence their frenzied efforts still further to bind the hands of the people.

Which would have been more dangerous to the people of the United States and their liberties, to have had Theodore Roosevelt president for a third term, or William H. Taft in office for two years longer?

What the United States needs is not so much a limitation of the term a president may serve, but a method by which the people may get rid of a president when he has outlived his usefulness. Abraham Lincoln could have served as president twice, six years, to the last year rendering splendid service to the nation. But William H. Taft had served too long when he had been in office one year.

The one term of six years would still further weaken the control of the people over the president. And this is the intention of those pushing the amendment. Big Business, allied with corrupt politicians, is attempting once more to dupe the people.

The amendment that should be submitted is one that will give the people the right to recall a president. With the right to recall there would be no need to limit the number of terms a man might serve. A good man should serve as long as his services are needed by the people; a bad man should be recalled at once.

Those who fear the people, on the other hand, would give an equal term both for good presidents and bad presidents. Once a man were elected, the people would have, for six years, no control over him, no matter how bad his administration might be.

Do the people want to sign away their rights in this manner?

SAFE AND SANE

FOOTBALL, according to statistics, is annually growing less dangerous. In 1912, there were only 10 deaths and 26 serious injuries, as against 14 deaths and 67 serious injuries in 1911, and 14 and 43, respectively, in 1910. And there's enough excitement left in the game, even with the revised rules, to draw record-breaking crowds to the big games.

THE ONLY WAY

IT is reported from Washington that Democrats will join with Republicans in congress to eliminate the new Progressive party. There is just one way in which the Democrats can hope to eliminate the Progressives, and that is by making the Democratic a progressive party, and by enacting the legislation the Progressive party stands for.

[All letters intended for the Open Parliament must bear the name and address of the writer, not necessarily for publication, but as an evidence of good faith. Controversial letters will not be published without the signature of the writer. Communications for this department should be limited to 400 words and should be free from personalities.]

WORKINGMEN AND THE CHURCH

To the Editor of The Gazette:

Why are the working people leaving the church?

New I think that the chief reasons can easily be stated:
Working people, and the poor, see that the church has grown rich and proud and selfish, and we have lost faith in it. We know the life-history of Jesus, and how he sympathized with the poor, the homeless, the friendless, and we see how rapidly the millionaire church leaders are piling up mountains of wealth through stock-watering, speculation, child slavery and the cruel crushing of working people under the greed, the intense competitive business system which they uphold and defend, even if, to do so, it is necessary to call on the military to shoot the workers to death.

Yes, the "rich Christians" build magnificent church houses, while in every city in the country there are hundreds, even thousands, of children who go to bed hungry and who are too poor to go to school; and scores of thousands of overworked, half-starved, pale-faced women, toiling like slaves and dying from lack of the necessities of life.

They contribute liberally to the foreign missionary fund while under their very noses are thousands of worthy people in destitution.
Within the past 20 years the churches of America, both Catholic and Protestant, have in a large measure lost influence with the working people, who are staying away from church services. We do not feel we belong there, for in all the aristocratic churches we see the rich, plutocratic, monopolistic exploiters of the masses sitting in the front pews.
Thomas Lawson tells us how they "made" \$20,

000,000 in one night. Morgan, Rockefeller and Baer, and the enormously rich men generally, are members of the churches.

The clergy generally denounce vehemently the "awful sin" of card-playing, dancing, going to the theatre and visiting the parks on the Sabbath-day, but they talk softly and diplomatically, hardly above a whisper—about the wickedness of the present competitive system of industrialism, and the colossal crimes of the few greedy, heartless exploiters of the working people.

These remarks do not apply to all the preachers of Europe and America. There may be some exceptions.

The clergy may, by preaching an endless hell after death, scare a few of us into repenting, but, be that as it may, I am persuaded they could accomplish much more good by trying to abolish the economic hell in which millions are submerged here and now.

It is a stubborn fact that the churches all over the world, with rare exceptions, stand behind and uphold and defend monarchy, imperialism, war, slavery, plutocracy, capitalism and the infamous iniquities that are the outgrowth and legitimate fruits of our selfish, un-Christian business system of individualism—of competition.

We do not hesitate to absent ourselves from church services until such time as the church teaches and practices true Christianity. M. J. ACTON.
Colorado Springs, Nov. 28.

FOR HE HAD GREAT POSSESSIONS

From the Philadelphia Inquirer.

On Friday Vincent Astor will come into a fortune estimated at \$70,000,000, not one dollar of which is due to his own exertions. It is a tremendous responsibility, but one which may be discharged so as to justify this extraordinary possession.

The original Astor fortune came from investing profits through furs in New York city real estate. The total owned by the heirs of the original John Jacob Astor would not easily be calculable. But many of those who have shared in the estate have increased their holdings by wise investments. The late John J. Astor, father of Vincent, had in a short business career added vastly to his wealth, and, so far as is known, by honorable means, through wise business foresight.

Doubtless many persons will envy young Vincent Astor, but it all depends upon how he is going to discharge a stewardship which is of vast proportions. The potentialities for good or evil of so many millions are vast. It is to be hoped that the young man will understand the obligations laid upon him and use his wealth for good purposes. He cannot personally use 1 per cent of his income. There are limitations on enjoyment even in the multimillionaire world.

AN INGENUOUS PARADOX.

From the Roberts (Wis.) News.

Mrs. A. F. Hafer entertained the ladies at her home in honor of Mrs. Shackelford of Minneapolis. A social time was had by all. There being only widows present.

O YOU MERE WORDS!

From the Salem (Ia.) News.

She was the faithful organist for the Congregational church for 20 years. In fact, faithfulness and conscientiousness marked her every effort in the line of music, her chosen calling, the inspiring influences of which are everlasting and far beyond the power of man to comprehend or describe with mere words.

THE ERSTWHILE DRAMATIC CRITIC.

From the Downstate News.

In variety and versatility, its combination of technique and spontaneity shining at times off into the chastely humorous and ludicrous; the stinging voices of superb quality and blending; the tinkling and inimitable "tintinnulation of the bells" which the late Edgar Allan Poe would have loved to hear—softer and sweeter than Father Prout's melodious bells of Shandon; all summed up, made an entertainment worthy of a cosmopolitan city many times the size of Downstate.

Cold Baths and Disagreeable Duties

By RUTH CAMERON.

A friend of mine had been trying to make up her mind to pursue a certain course of action which she felt was her duty but which was very unpleasant to her. From day to day she had put off any action in the hope that something would happen to render it unnecessary for her to make the sacrifice.

"Yes," she said, "things have come out all right, but nothing has happened. It's simply that I've made up my mind to give up struggling and fighting and just do what I ought to do. And she was very unhappy."

The other day I met her and was surprised to be greeted in such a thoroughly cheerful voice and to look into a serene and happy face.

"Oh," I said, "I know things have come out all right for you. I decided that way before I went to sleep that night I was talking to you, and I've felt happier since then than I have for weeks. And do you know, I don't think it's going to be half bad after all."

"If there is any one among my readers—friends who is struggling against some disagreeable duty, some difficult course of action, I wish he could have seen that girl's serene face and heard her happy voice as she told me of her simple solution of her difficulty."

I am sure he would begin to wonder if he too might not find serenity and peace by ceasing to struggle for some other way out and simply starting to do whatever it was he dreaded.

Did you ever take a cold bath on a winter morning?

If you have, you know that it is the plunge that is disagreeable, not the bath itself. Once you have taken that much-dreaded jump into the cold tub you are all right—just oh how hard it is to make that plunge!

And so it often is with unpleasant tasks and duties—the actual doing isn't so bad, it's dreading them, struggling against them, nervously yourself to take the plunge and then running away from it, that takes so much effort and makes us so miserable and unhappy.

Try it, my friend. Stop hoping for something to happen that will make it unnecessary to face that disagreeable duty; make up your mind that you are going to do it; burn your bridges behind you so that you can't get back to that miserable state of indecision, and then see if the blessed peace and serenity that comes to you isn't a far happier state of mind than you have known for some time.

It does sound rather like a sermon, doesn't it? But perhaps you'll forgive me if I promise to be more careful in the future.

DEBTS

By GEORGE FITCH,
Author of "At Good Old Slawash"

Debts consist of a pile of bills in the mail box and a collector around the neck. They are going to pay next week, but unfortunately this week always lasts on coming in next week's place.

Debt is very unfortunate because it generally makes two men unhappy—the man who owes the money and the man who can't get it. Some debts, however, only make the former unhappy because of the blithe and hopeful disposition of the debtor who declines to add to the calamity of this occasion by worrying. Many a man can carry a load of many thousands of dollars of debts without giving them a thought and will even cheer up his gloomiest creditors by buying them fine cigars—on tick.

Debt is a great misfortune to some men who shudder when they spend a nickel for bread because it belongs to

"GIVE A DEBT A \$10 START AND TAKE YOUR EYE OFF IT AND IT WILL GROW TO \$2000."

the man who sold them last year's beefsteak. To other men debt is only an annoyance and they speak harshly to the patient collectors who insist on bothering them. To still others debt is an asset. Some men are such financial geniuses that they can use \$600 worth of bills to obtain \$1,500 additional credit. This can be done by means of a slow and painful process and is about as interesting as pounding stone. But accumulating debts is delightful and the man who has not felt the thrill of stepping blithely into a new motor car and telling the owner to charge it has something to live for.

In the old days they used to lock debtors up in prisons but now the man who has accumulated a clothes basket full of bills can go peacefully into court and swear that he hasn't anything in the world except 25 suits of clothes and a piano after which he is declared bankrupt and can buy a new clothes basket and begin a new collection. This has made the debtor's life much more comfortable and collecting obligations is now one of our most fascinating national pursuits.

Debts grow faster than anything else on earth. Give a debt a \$10 start and take your eye off it and it will grow to \$2,000 in no time. Paying debts is a slow and painful process and is about as interesting as pounding stone. But accumulating debts is delightful and the man who has not felt the thrill of stepping blithely into a new motor car and telling the owner to charge it has something to live for.

In the old days they used to lock debtors up in prisons but now the man who has accumulated a clothes basket full of bills can go peacefully into court and swear that he hasn't anything in the world except 25 suits of clothes and a piano after which he is declared bankrupt and can buy a new clothes basket and begin a new collection. This has made the debtor's life much more comfortable and collecting obligations is now one of our most fascinating national pursuits.

IF THIS IS YOUR BIRTHDAY

If in employ, you will receive some present or benefit. Be generally careful, and try to foresee the results of your decisions, weighing everything carefully.

Those born today will be fortunate in many ways, and if under proper direction, are capable of rising to great heights. When young they will try too many things to be successful in any.

MINISTER AND WOMEN HUSK CORN FOR CHARITY

EDGEMONT, Kan., Nov. 28.—The minister and all the women members of the local Methodist church husked corn from daylight until dark yesterday on a farm near here, owned by John Fairchild.

Fairchild, after he had learned that the church needed money for a new building, told the church members that they could have all the corn they husked on his place in one day.

Ten of the women husked 70 bushels and sold \$40 worth of the grain within an hour after they had finished their work.

RENO NOISES INJURE HIS NERVES, BUT GETS DIVORCE

RENO, Nev., Nov. 28.—Joseph Francis Griffin, a New York stock broker, has introduced a new wrinkle in the Reno divorce colony. He came here for a divorce but nerve-racking noises of Reno grated upon his ears, so he established a camp in the mountains above the city, where he spent much of his time. When his mail was delivered at a ranch five miles out of Reno.

Today, almost a nervous wreck, he secured an absolute divorce from Jesse Ritchie Griffin for desertion in New York in 1909. They were married in Denver in 1887 and have one daughter, an accomplished musician in New York city, a graduate of the New York Institute of Music.

MAY MAKE PARK OUT OF SITE EQUITABLE BUILDING

NEW YORK, Nov. 28.—Leading downtown bankers are the backers of a movement for turning the site of the burned Equitable Life building on lower Broadway into a public park, which would give a much desired breathing space for thousands of workers in the section roundabout and furnish light and air to practically the entire Wall street district. The property was recently purchased by a syndicate for \$18,000,000 as the site for a 35-story skyscraper.

'Today at Hardy's

THE Christmas shopping season begins in earnest today. We have an extraordinary stock of choice things to choose from.

Art Lamps
If you think of buying an Art Lamp for Christmas, don't delay. You have the best selection now.

More than 50 styles to choose from here at \$10.00, \$12.00, \$14.00 up to \$35.00.

Desk Sets
We are displaying a great variety of Brass and Bronze Desk Sets—far the finest assortment we have ever shown. They range in price from \$4.75 to \$35.00.

Table Ferneries \$1.50
We place on sale today 50 Brass Table Ferneries at \$1.50 each.

100 More Glove Purses
We have just received another lot of the little art leather Glove Purses. They come in all colors, and sell at 35c, 3 for \$1.00.

Croft Calendars
Select your Croft Calendar while you have such a fine selection. Hundreds to choose from at 35c and 50c each.

More Art Craft Rings
100 more Art Craft Silver Rings go on sale today at 50c each.

THE CHRISTMAS GIFT STORE

IN HEARTY PAYS

THIRTY YEARS AGO TODAY

NOVEMBER 29, 1882.

A man named Westfall, who was on his way home to McConnellville, was held up and relieved of \$183 by three men in the vicinity of Templeton's gap.

The public schools closed for the Thanksgiving vacation.

Manager Brower of the telephone company had issued a new list of subscribers. There were several complaints from subscribers whose numbers had been changed.

The girls of the High school presented the newly organized High school cadets with a handsome flag.

The Manitou Park Mining company which was exploiting some alluvial mines near Woodland Park was ranging to run an excursion to the property.

A "Mrs. Jarley's Wax Works" entertainment was given at the First Presbyterian church before a large audience.

THE HASKIN LETTER

THE FISH INDUSTRY

VII. THE MENHADEN CATCH

By FREDERIC J. HASKIN.

Aside from food, no other fish product of the United States is so valuable commercially as that provided by the utilization of menhaden herring along the Atlantic coast. It includes a high grade fish oil which is utilized for many purposes and a fertilizer which has, to a large extent, supplanted the guano which was formerly imported in such large quantities from the western coast of South America. The average annual catch of menhaden is 600,000,000 fish, from which is produced about 70,000 tons of fertilizer and 35,000 barrels of oil, together amounting to at least a million and a half of dollars in value. There are now 32 menhaden factories in this country which engage about 70 steamers in taking the fish.

The industry of manufacturing oil from the menhaden herring is now over 100 years old, although it is only within the last 30 or 40 years that the industry has had any commercial importance. In 1811, Charles Baker and John Fairchild commenced making oil out of menhaden fish at Blue Point wharf near Portsmouth, Rhode Island. They used two iron pots and at first boiled the herring over an open fire upon the shore. After boiling well, the fish were packed into barrels or boxes, and weights put upon the lids. This pressed the fish down and the oil rose to the top and was skimmed off. A man named John Hunt went into partnership with them and he skinned off the oil and sent it to New York. The first factory to cook the fish by steam was built by Baker in 1818. By this time the value of the waste and the water had been recognized and Baker used it first in enriching his own land and afterwards offered it for sale.

From some reason never became well known and in the minds of most people the menhaden industry originated in Surrey on the coast of Maine in 1835.

Fish Moved Home.
For a number of years it centered there because of the immense schools of these fish which were found along the shores. Twenty years ago \$2,000,000 capital was invested in the menhaden industry along the Maine coast and then suddenly the fish deserted those shores and the factories stood idle. These fish then became noticeably abundant along the coast of the middle Atlantic states, centering in Virginia, which state now is the leader in the menhaden industry. A return of the menhaden to the New England coast has been noted, however, within the last three years, and last year and the year before a few barrels of oil were manufactured and there is now a strong feeling that it may again be a thriving trade there.

The menhaden, which is scientifically known as *Brevortia tyrannus*, has many local names along the coast. In New England it is called "porpie," in New Jersey and New York "moss bunker," in Virginia "old wives," probably a corruption of "alewives," and in the Carolinas it is known as "fat back." This fish has been taken all along the Atlantic coast from the time of the first settling by the white man, and the grounds have been used in a small way for food by the natives and poorer whites along the southern coast. When they are properly prepared, they are good to eat and can take the place of better fish. The fish roe is quite a delicacy in the opinion of many people and is eaten in the coastal country south of Cape Hatteras. It also is canned to some extent and sold as food.

It is common with all migratory fish the oldest and strongest go the farthest, which in the case of the men-

haden means farthest north. Therefore the size of the fish differs according to the part of the coast upon which it is found. The average length of menhaden caught along the Maine coast is 12 inches, in Long Island sound about 10 inches, along the coast of New Jersey and Delaware bay about nine inches, in Chesapeake bay about eight inches, and south of Cape Hatteras, six or seven inches.

Is Interesting Specie.
There is no fish the habits of which have been more thoroughly investigated than menhaden. Their spawning habits have especially been in dispute. An employee of the bureau of fisheries asked an old fisherman who had been engaged in taking menhaden for years all along the coast from Cape May in Maine to Port Arthur, Texas, "Captain, what do you know about menhaden?" The answer given was, "Not a blasted thing. And so no one else does." Notwithstanding this dictum it is generally accepted that the menhaden spawns principally in the warm waters south of the United States, chiefly in the Caribbean and mainly through the months of January, February and March.

The menhaden are now being taken quite extensively along the coast. They are smaller in size but are of a different color. Several plants have been recently erected, including one in Texas for the manufacture of the oil. Fertilizers produced from this fish, taken in the Gulf are heavier in proportion to their length and are active in their movements and it is a difference of opinion as to whether these migrate to the north or whether they change in their appearance at the exertion of traveling, or if they remain in the waters of the Gulf permanently.

There are, of course, a few of the fish which spawn on the Atlantic coast. In September of 1908 several schools of very small menhaden, an inch in length, were observed in the harbor of Vineyard Haven, Massachusetts, whose observation of the waters had extended over a period of 50 years, stated that they never seen menhaden of that size so far north before, although they frequently have found young fish a little less than an inch long all along the coast of New England during August and September.

Used as Fertilizer.
The utilization of menhaden as fertilizer is believed to have been known with the Indians, as there are traditions which indicate that they planted them in the ground with corn in New England. In fact, the word, "menhaden" is the English form of an Indian word meaning "warrior" and New Jersey it is said the squaws gathered the fish up, after they had been caught by their nets, and carried them in fall to the fields they were preparing for the next year's planting. They deep furrows with their deer hooves and laid the fish in straight rows, covering them lightly with earth a few months later they had become and the ground had enriched for a new crop was to be planted.

There has been, and still is, a controversy over the advantage the menhaden industry, some claim that the annual destruction of so many menhaden eventually tend to diminish the species. It is, however, by fish culturists that is not the case with menhaden. A careful observation which has tended over a term of years, which period is a century or more.

MIDWEST OIL CO. GETS BIG CONTRACT

The Midwest Oil company, with wells at Casper, Wyo., has entered into a seven-year contract with the Chicago & Northwestern railroad to deliver to it at Casper between 1,500 and 3,500 barrels of oil daily. The contract will pay more than \$5,000,000 for the fuel oil thus delivered and will use for motive power on all its lines west of the Missouri river and on the division east of it.

The Midwest company has secured a deal with the Standard Oil company of Indiana to deliver 1,000 barrels of fuel oil daily for railroad purposes and have let a contract to the Hammond Iron Works of Hammond, Ind., to have the capacity of their refinery at Casper increased by 2,000 barrels a day. This work is to be completed about February 1. The contract for the oil during October was \$5,700,000. Its preferred stock is now selling at \$13.75, and the common at \$7.

WILBUR'S TO OPEN AT 9 O'CLOCK HEREFTER

In order to comply with the provisions of the new eight-hour law for women, Wilbur's shoe company hereafter will open its store at 9 o'clock in the morning, instead of at 8 o'clock, as in the past. This change will be in effect next Monday morning, and will give the employees the full benefit of the law during the holiday season, the most strenuous of the year. Careful observance of the opening and closing hours by the patrons of the store also will aid in working out the new scheme.

SEVEN FIRE ALARMS

Within three hours and a half last evening the fire department was called out three times by fires in grass and rubbish. The first call came at 5:25 o'clock from 657 East Williams street. Companies Nos. 1 and 2 responded. The house at that number is owned and occupied by H. W. Benedict. The second call came from the Grier hotel at 7:15 o'clock, and was answered by No. 2. The third, at 8:50 o'clock, came from the top block on South Nevada avenue, and was answered by No. 1. In all, the fire department answered seven calls yesterday. Two false alarms and two fires caused by defective flues were on the list.

"ISLE OF DREAMS" MOST ATTRACTIVE

"The Isle of Dreams," a tuneful Japanese operetta, was given at the Grand opera house last night, under the auspices of the Federation of Women's Clubs, for the benefit of the National Federation endowment fund. A large audience was present, and the production was a decided success, both from a social and financial standpoint. Several boxes were occupied by club women, and Colorado college students occupied a box.

Seldom has a local production given by amateur talent proved to be such a success. Tuneful music and singing, attractive costumes and some really good acting and dancing characterized the presentation.

Dolls' Symposium At Perkins Hall Today

"The Dolls' Symposium," a most attractive pantomime and playlet, will be given by a number of children at Perkins hall this afternoon, under the direction of Miss Lucy Novels. Other features of the program will be choruses and a Swedish dance in costume. The affair will be given under the auspices of the Jyväskylä twenty of the First Congregational church. The story and cast of the "Dolls' Symposium" follows:

The scene represents a toy store. 12 o'clock at night. The dolls decide to have a symposium. They proceed with their program undisturbed until the storekeeper's little daughter, who believes that dolls do play at night, is awakened by the noise. She slips out of bed and tries to catch them at their play, but the dolls hear her and vanish. Cast:

Sailor Boys—Jack, the Rover, John Kimball, Jack Tar, George Stinson; Bobby Shattoe, Richard Davis; other sailor boys, Edward Moffet, Earl Dodson, Arthur Gray.

Jack-in-the-Box—Roadway Arkwright, Rag Dolls—Joe, LeMaistre, Mildred Pick, Glen Hutton, Tom Cadie, Clare Hutton, Clyde Baker Young.

Darkey Dolls—Dinah, Lorraine Gardiner, Sambo, Harold Dodson, Topaz, Lucile Corrin.

Baby Dolls—John Drew, Louise Ne Michael, Frankie Drew, Robert L. Key, Gertrude Vancey, Kenneth Fry, Teddy Bear, Edwin Wetmer, Leonard Bristow, Jim Plenderleith, William Anderson.

Risque Dolls—Dorothy Chambers, Eleanor Corrin, Ruth Young, Elizabeth Thrallkill, Marjorie Spaulding, Edith Dorothy—Helen Tancey.

Death and Funerals

Mrs. Grace Tway, the wife of George Tway, died at 2 o'clock Wednesday afternoon at 1620 Cheyenne boulevard. The body was taken to Columbus, O., last night for burial.

PROGRESSIVE SPIRITUAL CHURCH

Meets at W. O. W. hall, 9 E. Bijou St., Sunday even., 8 o'clock, Dec. 1. Very able lecture on "Science of Eternal Laws of Progression."

MYRTLE HOGGARD, PRG.

Twenty-five per cent of industrial accidents, it is estimated, are due to insufficient illumination.

IS YOUR CHILD'S TONGUE COATED?

If Cross, Feverish or Stomach Sour, It Means Waste-clogged Bowels

Children dearly love to ask questions of their parents, and nothing is more common than to hear a child ask, "Why is my tongue coated?" or "Why do I feel sick?" or "Why do I have a stomach sour?" or "Why do I have a fever?" or "Why do I feel cross?" or "Why do I feel feverish?" or "Why do I feel stomach sour?" or "Why do I feel waste-clogged bowels?"

Children get illious and constipated just like grown-ups. When they ask, "Why is my tongue coated?" or "Why do I feel sick?" or "Why do I have a stomach sour?" or "Why do I have a fever?" or "Why do I feel cross?" or "Why do I feel feverish?" or "Why do I feel stomach sour?" or "Why do I feel waste-clogged bowels?"

Children get illious and constipated just like grown-ups. When they ask, "Why is my tongue coated?" or "Why do I feel sick?" or "Why do I have a stomach sour?" or "Why do I have a fever?" or "Why do I feel cross?" or "Why do I feel feverish?" or "Why do I feel stomach sour?" or "Why do I feel waste-clogged bowels?"

CRAIG IN HOT SPRINGS

Charles Craig, the Colorado Springs artist, who is traveling with Verner Z. Reed and family, is at present located in Hot Springs, Ark., where he is painting the landscapes in that vicinity. A recent press dispatch says, in part, of Mr. Craig:

In reply to a question as to the authenticity of the "Sunset" which would transfer to canvas some of the many beautiful scenes in and about Hot Springs, he said: "What with my bath, my never less than five-mile daily constitutional, and the hours I spend in the hot springs, I have had time to paint the landscape in that vicinity. A recent press dispatch says, in part, of Mr. Craig:

THE NOSE A FILTER TO STRAIN THE AIR

Catarh Clogged Nostrils Breeding Place For Germs.

The nostrils are perfect "air filters," and when kept clean, healthy state strain every bit of air we breathe, catching all dust particles, foreign matter and germs. The air is full of germs. You cannot dodge them, but you can safeguard yourself against catarrh and other diseases contracted in the process of breathing by keeping the nostrils clean and healthy. Catarrh germs will sometimes get in their work, and you may mistake the symptoms for an ordinary cold.

Don't take any chances. If you have a stuffed-up feeling in the head, or if your throat is sore, or if you have a headache, just apply the nostrils with a little Ely's Cream Balm, draw the pure, aromatic fumes back to the head, and you will be relieved at the effect. In a few minutes you will feel a loosening up in the head, the nagging discharge will soon be stopped, the soreness gone, and you will feel a sense of genuine relief.

Ely's Cream Balm not only wards off catarrh, but will quickly cure even a chronic, longstanding case of catarrh. It takes the trouble right where it starts, in the nose and throat, cleanses, heals and strengthens the raw, sore inside skin, or membrane, and in this way drives out catarrh and makes you proof against this filthy, disgusting disease.

Colds, which often hang on for weeks, can be quickly cured with this cleansing, healing, antiseptic balm. All drug stores sell it for fifty cents a bottle, and the one bottle is generally all that is needed to effect a complete cure. Try today—Agents, The Robinson Drug Co., Adv.

"THE BEST OF COFFEE IS EASILY RUINED, AS IT ABSORBS ALL THE ODORS THAT IT COMES IN CONTACT WITH, AND CONSTANTLY THROWS OFF ITS AROMA AND FLAVOR."

Is the warning contained in a letter from an Eastern concern whose product is handled thru the grocer, where coffee comes in contact, either in the store or on the delivery wagon, with such choice odors as cheese, coal oil and onions.

Better run none of these risks by having your coffee come up from this specialty house.

POLICEMEN'S ANNUAL BALL IS BIG SUCCESS

The sixth annual ball of the Policemen's Relief association was held in Temple theater last night with an attendance that crowded the floor, big as it is. The decorations were elaborate, being arranged to feature the harvest season, and the floor was in excellent shape. The orchestra was made up of 12 pieces, and dancing continued until 1 o'clock in the morning. W. F. Kelly led the grand march, a service in which he has officiated at five of the annual events. Special owl cars were run to take care of the dancers at the close of the ball.

The affair was a decided success in every way.

DR. HIBBEN AT WINTER NIGHT CLUB THIS EVE

Prof. M. C. Gile of Colorado college (probably) will be elected president of the Winter Night club at its annual meeting at the Antlers hotel this evening, to succeed H. Alexander Smith, as he will be recommended to the club by the committee on nominations. The other recommendations which the committee will make are David Elliot, for first vice president; George M. Irwin, for second vice president; Dr. W. F. Martin, for third vice president; and W. W. Postlethwaite, incumbent, for secretary and treasurer. The committee is made up of Leonard E. Curtis, E. C. Sanderford, W. W. Flors, R. W. Chisholm and W. H. Cundey.

This evening's meeting is the first for the club this season. It will take place at the Antlers hotel, in connection with a dinner beginning at 7 o'clock. Dr. John Grier Hibben, successor to Woodrow Wilson as president of Princeton university, will deliver the address of the evening, speaking on "A Business Man's Philosophy."

CARD OF THANKS

We wish to express our thanks to the Carpenters union No. 516, and to all friends, for the kindness shown us in the recent illness and death of our husband and father.

MISS FLORENCE DILLON,
MISS STELLA DILLON,
MISS EVA DILLON.

DISCOVER NEW GOLD FIELD NEAR PLATORO

CRIPPLE CREEK, Colo., Nov. 28.—A quiet tip is being passed around among the mining men of the district that a new field similar in character to this locality was located late this fall by a Cripple Creek miner six miles from Platoro, an old, abandoned mining camp of prominence some twenty-five years ago but little heard of since then. The mines are situated in the northwest corner of Conejos county and are forty-five miles from Monte Vista, the nearest railroad station, on the Denver & Rio Grande.

A representative of the American Smelting & Refining company, and many of the larger Cripple Creek mine owners entered the field in September and remained until snow shut off all locating and development work. The altitude of the camp being 9,000 feet. A great rush of miners from Cripple Creek and other mining districts will begin as soon as the opening of spring permits.

Skeleton of Extinct Race Found in Rock Near Wagon Wheel Gap

WAGON WHEEL GAP, Colo., Nov. 28.—While sinking a shaft in the course of the development of a mineral deposit, Ellwood Bergey of this place discovered the almost complete skeleton of a human being evidently about ten years of age at the time of death. The shaft had been driven through the solid rock formation for a distance of forty feet from the surface. A charge of dynamite set off in the bottom exposed in the side walls a small fissure of about one foot in width and six in length which was tightly sealed with rock and talc formations. Within this silent and long buried tomb the fossil was found in a perfect state of preservation.

The discovery is exciting much local interest and speculation as to the probable time when this particular species of the race inhabited the earth. From a geological standpoint it is certain that some type of human being inhabited this locality many thousands of years ago. It is believed the discovery may prove of scientific interest in the study of archaeology.

There was a dry spot in Europe after last summer. In Greece almost no rain fell between May and September. In consequence, the olive crop suffered, and there will be no oil for exportation.

The Crescent Market

135 E. Huerfano St.

Our business has increased so rapidly during the last few months that I find myself unable to carry the volume of business on my books.

Therefore, beginning Monday, December 2nd, I will begin a strictly cash business.

This will enable me to buy and sell for cash and I will not be undersold.

It is a well-known fact that the credit merchant cannot compete with the cash merchant, as the credit merchant is absolutely sure to lose some accounts—he must therefore charge a little more for his goods—thereby forcing the prompt pay customer to pay the bills of the never pay customers.

I wish to thank my many credit customers who have been prompt in paying their bills and assure them that I will in future be better able to furnish them first-class meats at the lowest possible prices, thus making it an object to them to trade at a strictly cash market, where they will not have to pay indirectly the never pay customers' bills.

Four springers that will be fresh in few days that I will sell cheap.

J. E. MAHER

PHONES 1824, 448 AND 671

PLEASE DO NOT ASK ME FOR CREDIT, AS I WILL POSITIVELY REFUSE ANYONE.

Two pairs of shoes, worn alternately, will last more than twice as long as one pair.

Not only will this method increase the life of a shoe but will increase its comfort as well.

For this reason you should have more than one pair of shoes at a time.

HUSBAND SHOTS WIFE IN CONFECTIONERY STORE

NEW BRITAIN, Conn., Nov. 28.—Lewis Saxon early today walked into a confectionery store where his young wife was employed as a clerk, asked for a drink of soda and without warning fired at her twice with a revolver killing her instantly.

COL. RAMSDALL, SERGEANT-AT-ARMS IN SENATE, DEAD

WASHINGTON, Nov. 28.—Col. Daniel M. Ramsdall, sergeant-at-arms of the United States senate, former United States marshal for the District of Columbia and intimate friend of the late President Harrison, died here today as the result of an operation performed November 27.

What the Press Agents Say

"BOUGHT AND PAID FOR"

The big scene in Mr. George Broadhurst's social drama, "Bought and Paid For," which will be the attraction of the opera house Monday evening, for sure performance only, has one of the most tremendous and staggering "chutes" in the history of dramatic art. It is a powerful and beautiful and realistic play, and because it reaches into the intimate experience of thousands of men and women.

Robert St. John, a powerful and dominating character, has married Virginia Blake, a telephone girl. After their marriage, St. John, in his coming home, brings a most regular interval, and for some time his wife has been in a state of nervous tension, as long as she could, but this particular night he is unusually offensive. After the other members of the family have departed, he begins to make love to her. She is a woman with lines to appeal to her husband, but he is persistent. He tells her about the town. At length he goes to the door and orders champagne brought to the apartment. With two glasses, he tries to get his wife to drink with him, but she refuses. He becomes angry and tells her an ugly stream of words. Again he tries to make love to her, but she refuses him. He then throws her off and tells her he is going to get her out of his house. He becomes very and disgusting. He tells her that she was waiting until he came and after he got out of her poverty. He says he has given her everything, and that now she must give him affection. He declares he has a legal right to her, and by sheer brute force, he holds her in his arms and kisses her. She tries

Make your cut glass sparkle with

GOLD DUST

Soap leaves a greasy film on glass, which is hard to remove; the following method of washing will, however, make glass crystal clear:

Take a wooden tub, or pad the metal sink with soiled glass-linen towels, or any soft piece of cotton. Wash the glass in warm suds, made by dissolving a teaspoonful of Gold Dust washing powder in a pan of hot water; use a soft brush to clean surface, then rinse in water of the same temperature.

After the glass has been carefully dried on glass linen, use a camel's hair brush to polish the cut surface.

The Gold Dust Twins Make the Whole World Brighter.

Do not use Soap. Naphtha, Benzene, Soda, Ammonia, Kerosene with Gold Dust. Gold Dust has all desirable cleaning qualities in a perfectly harmless and lasting form.

"Let the GOLD DUST TWINS do your work"

SCENE FROM "BOUGHT AND PAID FOR" AT GRAND OPERA HOUSE, MONDAY NIGHT, DECEMBER 2.

away from him and rushes into her room, locking the door. Deceived by his drunken passion, he snatches the heavy brass handle, and, crying in a hoarse voice that he has a right to her, he crashes in the heavy wooden panel of her door and forces his way into her room.

The scene is one of great strength and daring, which, for over a year, has held great houses breathless.

Seats today.

"THE CELESTINATION"

AT THE OPERA HOUSE

"The Celestination," which played to a tremendous success for six months at the Bijou Theatre, Broadway, New York city, will be presented at the opera house today and tomorrow, matinee and night, and is proved to be one of the most successful plays on the stage in the past 10 years, and one that will appeal to the most cosmopolitan theatrical audience.

The story that is told is a remarkable one, and the plot is well developed and finds a strong conclusion. Much interest should be attached to the fact that this is the first performance of this great play, which claims great dramatic powers, heart interest, a lesson and a purpose, coupled with the announcement of a distinguished cast of exceptional ability.

THE BURNS NEWS NOTES

"At Cozy Corners" just two more nights and Saturday matinee.

We have in preparation one of the prettiest romances of the day, "The Little Gray Lady," which opens December 2.

"At Cozy Corners" is just the thing to enjoy after a good old-fashioned Thanksgiving dinner, and The Burns is the place to go to see it.

This week's music is full of fun and fire. Thanksgiving music.

"At Cozy Corners" the hit for this week at The Burns, is a rural comedy drama in four acts, by Pauline Phelps and Marion Short.

It is recognized as one of the best modern rural plays, having a strong dramatic story and all the comedy elements which are always so plentiful in rural plays.

SPECIAL

The Burns management's plans are in staying that arrangements have been completed with Mr. William Blum to give a musical program especially adapted to Thanksgiving. After the splendid music which this orchestra has rendered during the past season, the public may rest assured that The Burns program for Thanksgiving week will include musical numbers which will be a high-class concert in themselves.

There will be one more matinee this week Saturday afternoon. The play will be presented in perfect style, every actor being word-perfect.

The crowded house at both performances was a real treat, especially as everyone seemed to enjoy the play, judging by the great applause.

ANOTHER RECORD HOUSE FOR PERSINGER

Ticket sales for the Persinger show indicate that it will be another record house for Persinger's second concert. This is the

most remarkable occurrence in musical circles ever known in Colorado Springs, and after an audience which filled every seat and included some standees, there should be a second concert of such proportions that only Persinger himself has surpassed it. A large part of next Monday's audience will be of those who heard his concert last Monday, which proves beyond a doubt his strong hold on the affections of this public, and the sterling qualities of his art.

The general consensus of opinion among musicians who heard his concert is that Persinger's playing was a masterpiece, and that his wonderful rendition of the Mozart concerto, especially the slow second movement, was beautiful, and there-fore, his musicianship as shown in the condition of this number will be remembered long by all who heard him. All of the tickets are on sale at Will-Princess Theatre building.

Girl Is Touring World for Best Type of Man

CHICAGO, Nov. 28.—A pretty, well-to-do girl from Paris is making a tour of the world to study men.

She is Miss Katherine May Singleton, daughter of the late Major Harry Singleton of the British army, and is a traveling correspondent of a French publication. She is accompanied by Mademoiselle Duplessis, Miss Singleton stopped in Chicago on her way from San Francisco to New York and told of her travel mission.

She must see all kinds of men of all nations and find out for her paper what nationality represents the best all-around type of husband.

Discussing the American man, she said: "Americans combine the most fascinating qualities of the Russian, French and several other nations. They have the sincerity of the English and are lacking in the brusqueness of the latter. Russian men are the most polished

WILL PAPE'S DIAPEPSIN REALLY CURE MY STOMACH TROUBLE? YES

If Your Stomach Is Sick, Sour, Gassy and Upset Now You Can Surely Get Relief in Five Minutes

Sour, sick, upset stomach, indigestion, heartburn, dyspepsia, when the food you eat ferments into gases and stagnates in your stomach, causes you to feel sick and miserable, there is where you realize the magic in Pape's Diapepsin. It makes stomach distress go in five minutes. If your stomach is in a continuous revolt if you can't get it regulated, please, for your sake, try Diapepsin. It's so needless to have a bad stomach make your next meal a favorite and accomplished, referring always to those of the ruling class—the army and diplomatic corps.

Frenchmen are the most accomplished love makers and best desirable husbands. Englishmen are the most valiant, stout of all mankind, clumsy love makers, insidiously insular in their prejudices, but sincere in their affections, and honest in their convictions. Germans are tyrannical in domestic affairs and unkind in love.

Colorado City DEPARTMENT

Because of the poor financial condition of the city, and in the belief that better men can be secured in that way, it is suggested that the city commissioners under the charter serve without pay. It has been pointed out that the framers of the charter are to serve without pay, and that they probably will meet as many times during the 60 days allotted to them as will the commissioners in a year. It is urged that the system of not paying the members of the school board has produced good results.

G. H. Eckhart, Jim Platte, Gus Prusser and Jim Lindsay are in the city jail and will be tried in police court this morning for fighting, at the Geising saloon, Wednesday night.

Justice Paulkney Wednesday sentenced Daniel Ross to 60 days in the county jail for stealing three pairs of pants from H. S. Lockwood. William Carr was given 15 days for disturbance.

George Hill, Jr., of Leadville, visited his parents here yesterday.

The Woman's Association of the Universalist church will hold an open meeting this afternoon at 3 o'clock at the home of Mrs. R. E. Johnson, 7 Ramona street, Ivywild. Members and friends invited.

A special meeting of the city council has been called for tonight, in order that necessary preparations may be made for the transfer to the city of the share of Anthony East in the Bott & Becker water system, which was set for December 1, by Bott, when he announced his gift. The city will have to choose representatives on the board that will have control of the system. Bott holds three-fourths of the shares in the water company, and the Becker estate owns the remainder. The system, which supplies the entire south side of the city includes,

NATURE'S OWN REMEDY FOR TUBERCULOSIS

A. J. Nunnemaker, professor of anatomy in Cincinnati (Ohio) College, was suffering from severe hemorrhages when he began taking NATURE'S CREATION, says in a statement to the public on Oct. 10, 1910, "I commenced improving while taking the first bottle of the medicine and am now back to my normal physical condition."

In a letter to W. P. Stevens, 27 West 3rd Ave., Denver, on Oct. 21, 1912, he says: "The testimonial as stated is true and was written by myself personally to help those who have the disease. However, medicine is not all, with it you must have good, fresh air all the time, and plenty of rest—exercise is not good as a treatment."

Common sense and instructive facts about tuberculosis and kindred diseases are told in Nature's Creation new booklet, "Positive Facts," which will be sent FREE to any person. Write today, State Dispenser Portland, 594 Century Bldg., Denver, Colo. Not sold in drug stores. Adv. 17500.000.

Swiss Aluminum

It's really imported from Switzerland. All our beautiful utensils are made from a rolled sheet which is 99% pure aluminum. It is the highest quality sheet aluminum which can be obtained. That's why our goods are so light and strong. The workmanship of our "Swissalu" ware is unequalled for thoroughness.

The many new designs we show and the new uses to which this remarkable metal may be put will delight you.

Come in and examine them.
